OS Giken 2026 86Cup Contingency

For 2026, OS Giken is offering the 86Cup a special contingency for the race season. This contingency will be a cash bounty and competitors will have the chance to earn a cash prize per competition round.

Details:

1) 86Cup competitors competing in Modified class for any given round will have the opportunity to win a \$100 cash prize for the fastest lap of the competition per event after the given event has concluded given that they are running OS Giken branding as outlined below in “Requirements”.

—OR—

2) If there are no competitors in Modified class running OS Giken branding, then the cash bounty reduces to a \$50 cash prize for the fastest lap of the competition per event after the given event has concluded and any 86Cup competitor in any class running OS Giken branding is eligible for the \$50 cash prize.

Requirements:

1. Must run 2x (two) OS Giken decals on the front or rear bumper. Decals must be present on opposing sides (driver and passenger; view recommended decal placements below) of the vehicle. 86Cup administrators are happy to provide decals for your use upon request.
2. OS Giken decals may be removed between events/after an event has concluded, but they must be present on the vehicle for the duration of each event.
3. By participating in the OS Giken 86Cup Contingency program, participants agree to allow OS Giken to use submitted results and 86Cup admin submitted photos of OS Giken equipped and branded cars in OS Giken’s marketing campaigns and promotions. Participants acknowledge that the participant owns usage rights to any photos and results, and authorize OS Giken to re-publish submitted photos and results.
